Putnam Covid Case Numbers Soar

By Ron Allen

The West Virginia DHHR has not reported a single case of the Omicron Covid variant but the surge of active case numbers from 215 on December 23 to 501 on January 4, 2022, is strong evidence that it is here.

There were 449 new cases reported in Putnam in the 7-day period between December 27 and January 2.

While the jump in numbers is concerning, the numbers are not as alarming as they first appear. During a like period of time at the tail end of 2020, the active case numbers were well above 700. The new case number for the 2020-2021 7-day period was 385.

Statewide, the number of daily breakthrough cases during the most recent seven-day period is 583. The daily case number for the unvaccinated is about two and one-half times greater. The severity of Covid-19 infection at this time last year was 8.3 deaths per day statewide when all deaths were in an unvaccinated population. This year, the statewide death rate is only 2.3 per day among the unvaccinated. The statewide death rate for the vaccinated population is 0.4 deaths per day.

These numbers strongly suggest that the Omicron variant produces milder cases than other Covid variants. One year ago, the schools were closed and all instruction was remote. There is fear that in-person instruction may increase the rate of Covid transmission. This fear, surprisingly, is not borne out by scientific studies.

A new study released by Binghamton University, State University of New York shows that COVID-19 incidence rates were not statistically different in counties with in-person learning versus remote school modes in most regions of the United States.

Assistant Professor Zeynep Ertem at Binghamton's Thomas J. Watson College of Engineering and Applied Science said, "The main argument to close schools is driven by earlier conclusions from flu studies that younger

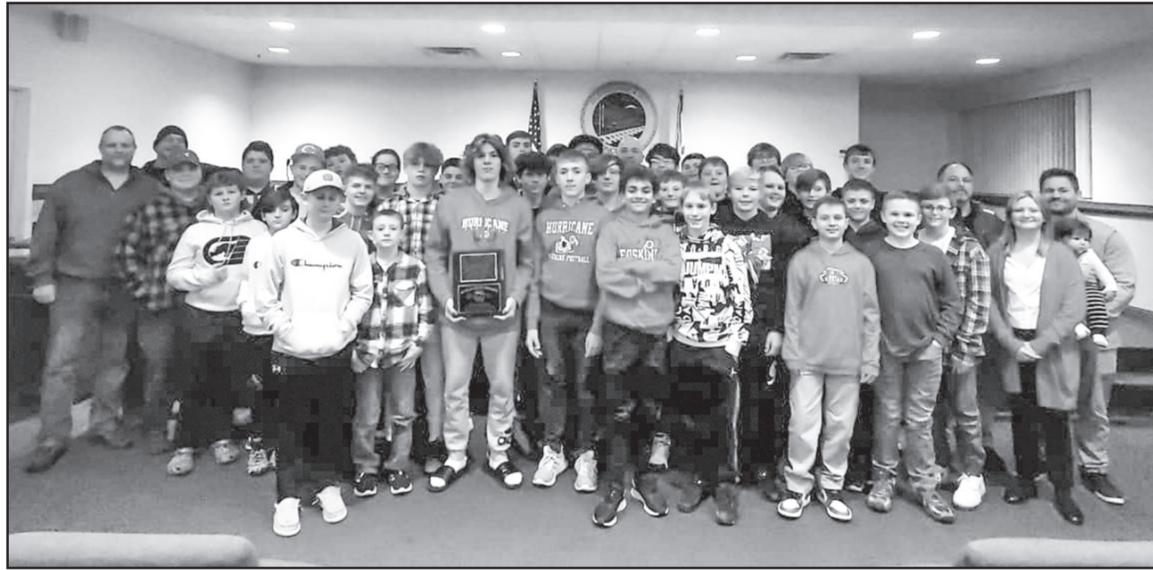

children don't always show symptoms but they may transmit the disease to their family members, which may include older groups at risk, however, our study finds no evidence of this in most regions of the U.S.

"In most of the U.S., we found no evidence linking school mode to COVID incident rates, suggesting that there is no point in disrupting students' learning experiences—even though in the South, there was a statistically significant increase in cases when they were open for hybrid and traditional learning," Ertem said. "There might be other factors behind it, because Southern states used limited mitigation measures compared to other regions. But in the Northeast and Midwest regions, the differences in the number of cases were not detectable across any of the three learning modes."

Other studies have revealed that individuals

Church's Production Bridges Cradle to Crown

By Betsy Allen

Bethel Baptist Church put on a Christmas and New Years program called "From Cradle, To Cross, To Crown" on Wednesday, December 29. The production was originally scheduled to take place on the Wednesday before Christmas, but the church's drummer and a number of cast members contracted COVID and had to quarantine. Undaunted, the church decided to have a combined Christmas and New Years celebration on the following Wednesday.

The new time was, in a way, more fitting for "From Cradle, To Cross, To Crown" as it shifted the focus of the production to the Cross and the Crown.

The first part of the production featured a cowboy themed skit put on by the youth of the church, as well as a nativity scene and a reading from Luke 2. The

The Centennial History of Hurricane

Meet Some of Hurricane's Oldest Families

In 1988, The Centennial History of Hurricane, WV was published to commemorate the town's 100th anniversary. Since the Centennial History is now out of print, the Breeze is reprinting articles from the book as space allows. This week's selection will be the 225th installment of the Centennial History.

A New Year's Message from Mayor Edwards

Editor's Note: The Breeze is sharing Mayor Scott Edwards' message of optimism with all our readers.

Hello everyone, this is Mayor Scott Edwards. I hope you all had a very Merry Christmas and that you're looking forward to 2022.

The City of Hurricane has many things on the horizon in the new year that I'm excited about - including Phase 2 of Hurricane Bridge Park that will include a disc golf

course, an all-inclusive playground, tournament-ready baseball fields, walking trails and more.

In the new year you will also see continued improvements at City Park and more progress on the awesome Meeks Mountain Trails. Our new fire station is being built on Midland Trail with scheduled completion this time next year, and new ADA accessible sidewalks are going to be installed on Main Street.

All of these things

along with our annual festivals and special events make me certain that 2022 is going to be pretty promising!

In my opinion, Hurricane is an awesome place to live, work and play, and I hope you agree. I am thankful you are part of our community.

Finally, I would like to take this opportunity to wish you a happy and safe New Year's weekend with your friends and family.

Thank you.

Happy New Year 2022 Again...

As I reflect on the past... live in the present... and dream of the future, I remember...

I can "see" Mother in the kitchen with Mama Coyner... putting pinto beans on the old gas stove... the cornbread in the oven... "wash day"... clothes hanging on the lines... hoping rain would evade that day... I can "see"...

I can "see" Mother and Mama ironing in the kitchen... piles of clothes, sheets, dish towels... everything got ironed it seemed... one or the other at that ironing board... sometimes they let me do the handkerchiefs and dish towels... I could hardly reach the board...

I can "see" Mama putting her delicious chocolate cake with the best white icing ever on that kitchen table... dessert was not a frequent occurrence in our home... that cake was a treat.

I can "see" Mama and Mother stretching starched curtains on the boards out in the yard... so starched they almost stood on their own when dried.

I can "see" Mother standing on the porch at 2612 Virginia Avenue... "Brenda Joyce, be careful... don't break your neck skating down the street..."

I can "see" Mother walking with me to Billups Bargain Grocery Store or the A to Z... Putnam County Bank... getting a coke at Raines

Pharmacy...

I can "see" Mother taking me to church, after we moved to Cow Creek for a couple of years... that little country church down the road where I was saved at age eight...

I can see Mother packing us up to move back to Virginia Avenue with her Mother...

I can see myself walking to First Baptist Church to join my friends in Sunday School...even if the snow was over our ankles...

I can see Mother in the kitchen making that pot roast with vegetables and fixing me a bologna sandwich...

I can see the first time I met Mike...July 4th carnival... I was making cotton candy and was fifteen... we started dating later that year...

I can see Mother as she planned our wedding and shopped... it was perfect. Evening wedding at Mount Vernon Baptist Church at Christmas time.

I can see Mother when she held her first grandchildren, my son and daughter... and Mama bringing candy out to the car, even though they didn't get candy yet...

I can see Mother on the front porch at 2634 Virginia Avenue... her foot pushing the swing... waiting for us to get there from Huntington, Summersville, Ohio, and later, Summersville again...

I can see Mother fixing those huge meals at the holidays... standing at the kitchen sink loving her family together.

I can see Mother... in the hospital... I can see... I can feel... I can KNOW... that last time... a life worth lived... she raised kids... loved us... loved her grandchildren... her friends and family... I can "see" for sure...

2022... (Mother would have been 90 on December 24, 2021)... what would she think of 2022? I can see... embedded in my heart are the memories of my beloved mother... young when she died at 60... I can "see"... I don't just feel... I can "see" in my mind and heart...

A little piece of my heart lives in Hurricane, West Virginia... where this little girl grew up... loving family... loving my life there... but Mother gave me wings to go afar... but no matter where I live... wherever I am... I can "see" those days... those memories... I thank God everyday that He gave me the opportunity to have a beloved Mother... to marry a wonderful man... to raise two of the best the world has to offer... to have five of the best ever grandchildren... and every day, I pray my thanks... because you see... I can "see" those moments in time that

helped me become the woman I am today... I can "see" those people who raised me and loved me dearly...I can "see" those streets in that little town where my footsteps remain...I can "see" those friends who walked those steps with me... I will always be able to "see" them... in my mind and heart and soul... because the way we were is the way we are... WV Strong. Hurricane Strong... no matter where... no matter what... thank you Lord... prayers to all this year. Happy New Year 2022... My word for the year is HOPE...

My wishes and thankfulness for the New Year 2022...

End to the Pandemic People masking and isolating or distancing

People vaccinating—using that scientific miracle

Traveling possible for the elderly

My trip to NYC possible for my 75th...

Visiting Indiana and West Virginia and Ohio... family and friends

Eating inside a restaurant

Going to the grocery and leaving the mask at home

Back to inside a church instead of online

Hugging more

Kindness more prevalent

Politics becoming less divided

Seeing friends I have not seen

Reading even more books—Is that possible?

Walking my steps and getting my miles

Finding a doctor like Dr. Smith in West Virginia

Being thankful I have found a dentist

Thankful I have found an eye doctor (although not Mark Brown, my favorite)

Seeing more of Florida

Having family here...

Family from Indy coming to visit

Others realizing Global Warming is Real

Okay... the main idea is that we need to be more gentle and kind in the NEW YEAR... we must put others first. I am writing this toward the end of 2021, and I am still in shock as to why others won't become vaccinated to protect themselves, family, and friends... No one will ever convince me that taking a vaccination is as bad as having the disease... I don't like the shots... I did it anyway... this has distressed me to no end... it is not about fear; it is about preservation... I like the mandates for school and job...get vaccinated...I wonder if those who refuse to do so refuse to wear seatbelts... refuse to take Blood Pressure Meds... refuse flu shots... refuse to have school kids vaccinated for other diseases... I firmly believe this is a political issue... and that does not make sense... For 2022, I hope that people realize that this disease, Covid, is a disease... not a political problem... it is real... it is here... it is not going away by wishing it away... prayers to all my readers and hope for a new healthy and peaceful year... to a country that is united and not divided by "My rights..." Prayers... prayers... prayers...

Mayor Scott Edwards and council rectified the absence of a 2020 Mid Valley trophy for HMS by officially proclaiming Hurricane Middle to be the 2020 champions of the conference.

In other business, council approved the appointment of Michael E. Hoffman as Hurricane Fire & Rescue Chief. Hoffman has more than 25 years of public safety experience in fire fighting and emergency medical services. The council is expected to act on the RFPs at a special meeting on January 24.

Don't Quit

Submitted by Myra Simmons

When things go wrong as they sometimes will,
When the road you're trudging seems all up hill,
When funds are low and the debts are high,
And you want to smile, but you have to sigh,
When care is pressing you down a bit,
Rest if you must but don't you quit.
Life is strange with its twists and turns,
As everyone of us sometimes learns,
And many a failure turns about
When they might have won had they stuck it out:
Don't give up though the pace seems slow
You may succeed with another blow.
Success is failure turned inside out,
The silver tint of the clouds of doubt,
And you never can tell how close you are.
It may be near when it seems so far:
So stick to the fight when you're the hardest hit
It's when things seem worst that you must not
QUIT!!!

Create a Healthier Routine With A Better-for-You Favorite

(Family Features) Taking time to nurture your health and well-being starts with building healthier habits. As the seasons change, challenge yourself to make small yet consistent choices that help you and your family through transitions at school, the office or wherever your days take you.

To help you establish (or re-establish) healthy habits during mealtime and beyond, consider these tips.

Eat Meals Together

"Making time for meals together as a family provides a chance to connect and decompress," said Bridget Wojciak, director of nutrition at Kroger Health, a national sponsor of the American Heart Association's Healthy for Good initiative. "In fact, regular meals at home can help reduce stress, boost self-esteem and improve feelings of connection."

Bring everyone together with a better-for-you seasonal favorite like Turkey and Bean Tostadas.

Make Time for Yourself

Chronic stress can have a negative impact on mental and physical health, but turning lost moments – like a meal by yourself spent mindlessly scrolling through social media – into mindful moments can help. Try practicing gratitude at the table by thinking of three things you're grateful for or putting your fork down between each bite to savor the flavor and consider the nourishment you're receiving.

Enjoy the Cooler Temperatures

Cooler temperatures can make it more enjoyable to take advantage of outdoor exercise, which is a good way to soak in vitamin D to improve your mood and boost immunity. Going for a brisk walk after mealtime (solo or with your pet), jogging and even raking leaves are examples of activities that count toward the American Heart Association's recommended 150 minutes of moderate physical activity per week.

Turkey and Bean Tostadas

Recipe courtesy of the American Heart Association's Healthy for Good initiative
Servings: 5

Salsa:

- 2 cups chopped tomatoes (about 2 medium tomatoes)
- 1 medium avocado, halved, pitted and diced
- 1 large ear of corn, husks and silk discarded, kernels removed
- 1-2 medium fresh jalapenos, seeds and ribs discarded, finely chopped
- 2 tablespoons finely chopped red onion
- 2 tablespoons fresh lime juice

Tostadas:

- nonstick cooking spray
- 5 corn tortillas (6 inches each)
- 8 ounces ground skinless turkey breast
- 2 teaspoons chili powder
- 1 teaspoon ground cumin
- 1 teaspoon ground coriander
- 1 can (15 1/2 ounces) no-salt-added black beans, rinsed and drained
- 2 tablespoons water

To make salsa: In small bowl, stir tomatoes, avocado, corn, jalapenos, onions and lime juice. Set aside.

Preheat oven to 400 F.

To make tostadas: Line baking sheet with aluminum foil. Lightly spray foil with nonstick cooking spray. Place tortillas on baking sheet. Lightly spray tortillas with nonstick cooking spray. Using fork, pierce tortillas several times to prevent from filling with air.

Bake tortillas 5-6 minutes on each side, or until golden brown.

In medium nonstick saucepan over medium-high heat, cook turkey, chili powder, cumin and coriander 5-6 minutes, or until turkey is no longer pink, stirring occasionally to turn and break up turkey.

Add beans and water. Cook 5 minutes, or until beans are heated through. Using potato masher, coarsely mash beans. Remove from heat.

To assemble tostadas, spread turkey mixture over each tortilla. Top with salsa.

New St. Albans I-64 Entrance and Exit Ramps Now Open

New westbound entrance and exit ramps for the St. Albans exit of Interstate 64 were opened to traffic by on Thursday, Dec. 23, 2021. The ramps are part of a massive widening project on I-64 funded through Gov. Jim Justice's \$2.8 billion Roads to Prosperity highway construction and maintenance program.

The new ramps are part of a \$224 million project to widen I-64 to six lanes from Nitro to the US 35 interchange near Scott Depot. The project also includes construction of a new bridge adjacent to the existing Nitro-St. Albans Bridge and replacing several smaller bridges between Nitro and Scott Depot.

Site work and construction on the project began in earnest in the spring of 2021 and required massive excavation and earth work. Contractors began blasting in the area over the summer.

The new westbound St. Albans interchange replaces the existing single bridge with two

new bridges, one for traffic entering I-64 and the other for traffic getting off I-64. The new westbound entrance ramp bridge is 339 feet long, while the exit ramp bridge is 167 feet long.

Contractors were completing guardrail installation and striping work during the days leading up to opening the new ramps.

New eastbound and westbound bridges at

Bills Creek opened to traffic in early December. Widening plans also include replacing bridges at Rocky Step, McCloud and at Nitro over WV 25.

Two new piers for the main Nitro-St. Albans bridge are nearly complete.

Plans call for building a new bridge just downstream of the existing Nitro-St. Albans Bridge to carry westbound traffic, then demolishing the existing bridge and

replacing it with a new span using a portion of the existing bridge piers to carry eastbound traffic. Each new bridge will be four lanes wide to allow motorists to go from the St. Albans exit to the Nitro exist and from the Nitro exit to the St. Albans exit without having to merge into interstate traffic.

The entire project is expected to be complete in late 2024.

Covid 2022: A New Year, New Fears

By Marilyn M. Singleton, MD, JD

By now, Dr. Fauci's Covid "fearspeak" has become background noise. Yes, the new "Omicron" variant is making its way around the world. Fortunately, reports from South Africa as well as other studies indicate that Omicron's illness is milder than Delta. Even Fauci-friendly public health physicians have cautioned that there is "absolutely no reason to panic."

In 2022, we should panic because opioid overdoses took the lives of 100,000 fellow Americans from April 2020 to April 2021—an increase of 28 percent from the same period the year before. The statistic is appalling but not surprising given the Covid lockdowns coupled with millions of doses of fentanyl and other illicit drugs flooding across a porous border.

We should panic because one in ten Americans has diabetes and one in three Americans has prediabetes. Moreover, 89 percent of the diabetics are overweight (Body Mass Index over 25). Just over 73 percent of the U.S. population are overweight and 42.5 percent are obese (BMI over 30). Worse yet, obesity among adults, age 18 to 25 years increased from 6.2 percent to 32.7 percent over the last 40 years. Instead of Dr. Fauci telling us we have to relinquish our individual choices when it comes to the increasingly ineffective current Covid vaccines, he should emphasize the effect of obesity on Covid outcomes. According to the CDC, about 78 percent of people who have been hospitalized needed a ventilator or died from Covid-19 have been overweight or obese.

We should fear the loss of scientific medical practice, when to avoid being stressed out, patients are demanding informed consent to be weighed in the doctor's office. Yet curiously, informed consent is not required for experimental mRNA vaccines.

We should fear the blatant abuse of power by our public servants in the name of public health. We should be afraid when our top health bureaucrat, the Health and Human Services (HHS) Secretary

declared "it is absolutely the government's business" to know people's vaccination status." We should panic when elected representatives jump on the medical privacy-banned bandwagon. The House of Representatives handily approved the Immunization Infrastructure Modernization Act of 2021 which would establish yet another government database. This one is an "immunization information system," that can share every vaccine dose with not only with other governmental but private entities.

We should be afraid when the FDA sends threatening letters to pharmacists, trying to limit the use of a safe drug shown to be 60 percent effective in improving outcomes of Covid. Why? It has side effects such as skin rash, nausea, vomiting, diarrhea, stomach pain, facial or limb swelling, neurologic adverse events (dizziness, seizures, confusion), sudden drop in blood pressure, severe skin rash potentially requiring hospitalization and liver injury. We've seen no such letters regarding molnupiravir, the new kid on the block for Covid treatment that can cause diarrhea, dizziness, headache, hives, itching, skin rash, nausea, redness of skin, vomiting, bone and cartilage damage in children, birth defects, cancer and is only 30 percent effective.

We should panic knowing that pharmaceutical companies spent \$266,846,347 lobbying Congress, and the American Medical Association's top corporate donors are pharmaceutical companies.

We should panic about the federal government establishing guidelines (future regulations?) for news and social media on suppression of health "misinformation." We

should worry that Meta, the company formerly known as Facebook engages in Soviet-style silencing certain political viewpoints.

We should fear social engineering and panic about the media becoming the new form of re-education camps. It's hard to miss the oohing and aahing over the first transgender person to make it to the Jeopardy! Tournament of Champions. Did they fawn over the first male, the first black person, the first white person, the first Asian person? No. BTW, the first Tournament winner was a woman, and a black man won years before women and blacks knew they were inferior, weak-minded oppressed persons. Someone, please come forward and enlighten us as to why a transgender person answering questions on a game show is headline news. Viewed in the most favorable light, perhaps the media were providing welcomed distraction from Dr. Fauci and his smug and smarmy self.

We should fear misguided attempts to stop racism with racism. In the name of social justice, colleges, businesses, medical schools, and K-12 schools have fallen into the trap of promoting Marxist race warfare where students and employees can learn that minorities are permanent victims of the irredeemably racist white people.

We should fear becoming accustomed to a new socially acceptable apartheid: segregation by race, vaccination status, and mask-wearing.

Most of all, we should fear how readily our fellow Americans acquiesced to unreasonable, unscientific demands at the altar of Covid-19.

When it comes to Covid in 2022, opt for prudence, not panic. Eat well, get enough vitamin D,

exercise, wash your hands, engage with your friends, cough or sneeze in your elbow, and stay home if you are feeling unwell. If you do get sick, seek medical care immediately.

Live your life. After all, there are 14 more letters after omicron in the Greek alphabet.

God's Garden

God looked around His garden
And found an empty space.
He looked down upon the earth
And saw your tired face.

He put His arms around you
And lifted you to rest
God's garden must be beautiful
For He only takes the best

He knew that you were weary
He knew that you were in pain.
He knew that you would never
Be well on earth again.

He saw the road was getting rough
And the hills were hard to climb
So He closed your weary eyelids and whispered
Peace be Thine.

A NEW YOU

The motto of our times could be "if you don't like it, change it". We are all about appearances and making ourselves look better on the outside. What about inner beauty? Transforming one's spirit costs nothing at all. If you are sad or confused on the inside, if the sparkle goes out of your eyes, how can you project a positive impression? A peaceful, happy spirit can help. Have you looked within? If the answer is no, give God a chance in your life. Psalm 96:6 directs us... "Strength and beauty are in his sanctuary." Won't you worship this week? Let God create a new you!

Abide in the True Vine

John 15:1-8

The entirety of the text before us consists of words which Jesus spoke to the eleven disciples who walked with Him to Gethsemane following the last supper. Judas was not present. The Lord's words are for the ears of all who believe.

The picture which Jesus placed before the disciples is that of a vineyard tended by a husbandman (God the Father). It is a vineyard consisting of one vine, and that vine is Christ Jesus.

In verse 2, Jesus made it known that both productive (fruitful) branches and non-productive branches would shoot forth from Him, the vine. After a period of time, the husbandman would remove branches that failed to produce fruit. After removing these branches, the husbandman would prune (purge) the fruitful branches such that they might bring forth more fruit. Jesus reveals the identity of the fruitful branches by implication in verse 3 and directly in verse 5.

In verse 3, Jesus announced, "Now ye are clean through the word which I have spoken unto you." This announcement is linked to the preceding verse by "Now." To what, in verse 2, does Jesus refer? Verse 2 is about removing unproductive branches and pruning (purging) productive branches. In verse 3, the disciples possess a new state of cleanliness. The link between the disciples' cleanliness and that which transpired in verse 2 is made clear in verse 5. The disciples are the productive branches which were made clean by that which the husbandman did in verse 2.

The link between verse 2 and verse 3 is immediately apparent in the original Greek text of John's gospel. The word "purge" in verse 2 is *kathairo* and the "clean" of verse 3 is *katharos*. The verb *kathairo* means to make clean by removal of unproductive wood and *katharos* (an adjective) means clean. The cleansing action (*kathairo*) of verse 2 produced the cleanliness that made the disciples clean (*katharos*) of verse 3.

In announcing "ye are clean through the word I have spoken unto you," Jesus proclaimed to the disciples that they were the branches which God the Father (the husbandman) had cleansed such that they might bring forth fruit and more fruit. Knowledge that one has been selected by God to be an agent of His will is not cause for celebration. It is cause to act; it is pressure to produce fruit.

Each disciple was to produce much fruit. In verse 4, Jesus informed the disciples of the manner in which they were to produce fruit. He said, "Abide in me." To abide in Christ, one must follow the Son's example of obedience to the Father's will. "Abide in me" means to do as Jesus did. He sought the Father's will without ceasing.

The words, "Abide in me, and I in you," are spoken to all who have the ears to hear. They are spoken to every branch which has not been removed from the vine. They are spoken to each and every branch that will ever bring forth fruit. They are spoken to all who know that they are totally dependent upon the one and only true vine. They are words spoken to all who know that they are saved by grace through faith given by God (Eph. 2:8, 9). A branch, separated from the vine, cannot produce fruit (v. 5). Branches separated from Christ are powerless.

Branches separated from the vine wither and are cast into the fire and burned (v. 6). There are some who take the burning of the separated and withered branches to mean that salvation is conditional upon being attached to the true vine. This view is not supported by the actual words of the Greek language in which John recorded his gospel. There are multiple Greek words which are translated as burn or burned. Burning for purpose of destruction is expressed by *katakaio*. Burning for purpose of producing light is expressed by *kaio*. The word used in verse 6 is *kaio*. The branches which the husbandman separated from the true vine are not destroyed; the separated branches are used to produce light for men. The light from burning branches flares up, flickers, glows, then fades. That light does not produce fruit. The branches that abide in the vine are fruitful. Fruitful branches radiate the light of the Word which came into the world (Jn. 1:4).

In verse 7 Jesus said, "... ye shall ask what ye will, and it shall be done unto you." Receiving the desires of the heart is not dependent upon that which is asked. It is dependent upon having the right heart. When believers abide in Jesus and He in us, our hearts become right. Our hearts become as His, ever seeking the Father's will. One cannot change the character of his heart. God transforms the hearts of them who abide in the Son and the Son in them. Evidence of that transformation is seen in answered prayer.

"Herein is my Father glorified, that ye bear much fruit; so shall ye be my disciples" (v. 8). God is glorified by the branches which bear much fruit. The branches have no strength in themselves but every branch that abides in the Son and the Son in him is given power, power unlimited to do the Father's will. God glorifies Himself in all who ask that He purge them of all dead wood.

Let us pray and be purged such that we become vessels which glorify the Father. Let us abide in Him and He in us. Let His love be seen. Let the Son glorify the Father in the vessels He has cleansed.

JANET HILL

Janet Marie Wilkinson Hill, age 80, of Black Betsy, left this world on December 31, 2021, surrounded by her loving family. Janet woke up in Heaven this New Year's Eve where she was greeted by her Lord and Savior and a host of family and friends that she has longed to see. God picked the perfect day to take her and now she is having an eternal celebration.

Born April 27, 1941, on Heizer Creek, she was the daughter of the late Rev. Jesse Wilkinson and Reba Haley Wilkinson. She was also preceded in death by a sister, Connie Shaffer. On July 12, 1958, she was married to her loving husband of more than 63 years, Larry G. Hill, who survives. Also surviving are two daughters, Pamela Rhodes (Gordon), and Janette Brunty; three grandchildren, Kirsten Rhodes, Seth Rhodes (Kristin), and Jordan Babbitt (Amanda); and two great grandchildren, Solomon and Isaiah Rhodes.

Janet sang and traveled around the tri-state with a girls choir known as the United Melody Chorus. She was a member of Lett Creek Community Church and owned Poca Floral for a time.

Janet loved children

and was a teacher's aide at Confidence Elementary and Rock Branch Elementary, later owning her own daycare center for 14 years. Known as "Nana" to her grandchildren, and countless other kids, she played a special role in each of their lives.

There was only one thing she loved more than Elvis and that was Jesus, and she loved to tell everyone about her Lord and Savior, Jesus Christ.

Janet's Celebration of Life service was Thursday, January 6, 2022, at Cooke Funeral Home Chapel, Nitro with Pastor Jay Mace officiating. Entombment was in Tyler Mountain Memorial Gardens, Cross Lanes.

MARJORIE JIVIDEN

Marjorie D. Jividen, 86, of Eleanor, passed away Friday, December 31, 2021 at Hubbard Hospice House following a long 64 year battle with diabetes.

She was the daughter of the late Sullivan Agie Smith and Mary Stutler Smith. In addition to her parents she was preceded in death by her loving husband of 61 years, Lester Paul "Buddy" Jividen; infant daughter, Peggy Lynn Jividen and brother, Carroll Smith.

75th Wedding Anniversary In Heaven

By Linda Armstead of Hurricane
 This year on January 11, 2022, my parents are together again and will be celebrating their 75th wedding anniversary in heaven for the first time. Oh what a joy that must have been when Dad and Mom saw each other again on December 10, 2021, when she gained her heavenly wings and Dad met her at the pearly white gates! They had been separated since November 6, 2010 when Dad gained his heavenly wings. Mom and I had mourned the loss of Dad since his promotion. Now, they are waiting on me, their daughter, Linda Fisher Armstead, their son-in-law, George Armstead, their grandson Brad Armstead and his wife Julie and the apple of their eyes; their great-grandchildren, Kelci and Braeden Armstead.
 Happy 75th Wedding Anniversary to my parents, Delmar "Vernie" "Pete" and Eva Young Fisher. You two are missed so very much but you both got what you wanted - to be together again in Heaven forever and ever!
