Acts to Reopen Poca Supermarket

By Ron Allen

The Putnam County Commission approved an Asset Purchase and Lease Agreement its Thursday, May 26, meeting which will result in Putnam Holdings, LLC maintaining or causing a grocery business to be maintained in Poca.

The agreement means that the real estate involved will be listed under the name of the Putnam Development County Authority and will not be subject to property taxes for a 15-year period on the condition that the old Poca Supermarket be reopened and continue to operate.

Poca residents have been without a grocery store since April 1st unexpected following closure of the Poca Foodfair. The closure has caused a loss of B&O tax

different parties who are interested in reopening the supermarket.

The arrangement will result in the loss of approximately \$22,000 per year in property tax revenue to the County and the Town. Mayor Wimpy Jones reported the B&O tax revenue created by the reopening will more than offset the loss in property taxes. Mayor stated that he is hopeful that Poca will have an operating supermarket before summer's end.

Putnam County property transfer records reveal Putnam Holdings purchased the 1.32-acre supermarket plot from M C Inc. for \$1,010,000 on May 20th. Putnam Holdings LLC maintains an office in Eleanor.

In other business, the Commission approved the sale of 0.116 acres of county property in Curry District to Sierra Sheltz Putnam Holdings is in and Jacob Burns for \$2,158. The property was sold online by auction through Govdeals.com. Sources report that The Commission had set negotiations are in a minimum bid of \$500 progress with Putnam for the property at prior

Putnam Well Represented at Vandalia Gathering

By Betsy Allen

The Vandalia Gathering returned in full force Memorial Day weekend, with the festival of traditional Appalachian music and dance resuming its three-day long span. There was no festival in 2020, and in 2021, it was downgraded to a two-hour afternoon concert without any dancing, vendors, or craft exhibits. Last year, many people feared that the Gathering would be permanently scaled down or even discontinued altogether. However, these fears were to be for naught, for the 2022 Vandalia Gathering was reminiscent in size and scope of gatherings of the past. The theme of the event was "family Reunion," an appropriate sentiment for the resumption of the

records of this Wise (Weiss) family in America are those church records of the Old Goshenhoppen Reformed Church and the New Goshenhoppen Reformed Church in what is now Montgomery County, Pennsylvania. These records reveal that Johann Ehrhart Weiss, an ancestor of this family, was a member of the Old Goshenhoppen Reformed Church, and further research has revealed that he was born in Germany in 1723 and came to America at the age of fifteen.

Also, the records show that Johann Ehrhart Weiss had a son Philip Weiss, born in 1749, who moved from that community York County, Pennsylvania, where he and his family were living in Lower Chanceford Township when the 1790 Census was taken. Later, about 1810, Philip Weiss and several members of his family, including his sons John, Jacob, and George, moved to Belmont County, Ohio. His son Henry remained in York County and there are numerous of his descendants living there today.

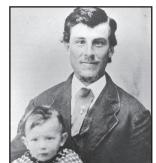

Jacob, born in 1779 in Pennsylvania, became a blacksmith, but was killed at a relatively early date (1817) in a horse related accident, leaving a widow several daughter of Christopher Hinkle, a veteran of the War of 1812, and they had children Sarah, Jacob, Susannah, Thomas, John, and Samuel David. The Samuel Wise family moved first to Licking County, Ohio, where Sarah was born, and later to the Wegee settlement in south Belmont County, Ohio, and then finally to Gallia County, Ohio, in 1856. Susannah and John died as children in Belmont County.

In Gallia County, the Wise family lived first along Raccoon Creek as neighbors of several others of their cousins and their families. Later, the Samuel Wise family moved to Clay Township in Gallia County, where Samuel Wise maintained a wood-working shop and worked as a carpenter, undertaker, and farmer. All three of his sons moved to Putnam County, West Virginia, at different times, but Thomas, who married a Putnam County woman, Meddings, Charlotte returned to Gallia County, where he remained until his death. Thomas was well known in the county as a fruit farmer and

Jacob Wise, who was a farmer and fruit grower, first married Martha Wise of Gallia County, and later married Martha Meddings after the death of his first wife. Jacob Wise is buried in Mt. Vernon Cemetery in

Putnam County. Samuel David Wise, born in Belmont County,

S.D. Wise and oldest

Ohio, in 1850, became wood-worker and which area includes the carpenter. He learned his Neckar Valley and the trade as an apprentice to his father. Together Among the earliest they built houses in the Gallia County area and wood products in their shop in Clay Township. In 1870, Samuel David Wise brought a wagonload of grain cradles across the river to sell in Putnam County. At 20 years of age, he was not yet emancipated, but after selling the grain cradles, he remained in Putnam County. At the James Thomas Ellis farm he met Henrietta Ellis, who he married in 1870. He was twenty years of age; she was seventeen. From this union, a large and boisterous family resulted.

Samuel David (usually referred to as David or S.D.) and Henrietta settled in the new Village of Hurricane to establish one of Hurricane's pioneer families. In time, thirteen children made their appearance in the household, as follows:

Launa Myrtle Wise Clarence E. Wise Charles

Lovell E. Wise (born in Gallia County, Ohio; died in infancy)

Lillian Pearl Wise Sarah Buelah Wise

Cordelia B. Wise (called Carie) Harry Virgil Wise Fannie R. Wise (called

Fay) Claira L. Wise Nellie A. Wise Fred

Eugene Wise Mary Marguerite Wise David Wise was able children to put his trade to good including Samuel Wise use in the Hurricane born in 1815. Samuel area. The coming of the married Margaret Hinkle, C&O Railroad brought a building boom for a time. In the 1880 Census for the Village of Hurricane, David Wise is the only house-carpenter listed. But he not only built houses, churches, and such buildings, but any other wooden structures. For a time, he built culverts and bridges for the C&0 Railroad. Later, he worked as a carpenter for the Black Diamond Coal Company at a place in Kanawha County now known as Diamond. This company experienced somewhat of a boom from about 1900 until about 1905, the time during which members of the Wise family lived in the area. It was here that David lost Henrietta to cancer of the uterus in 1904. Her death, lingering and painful, was a traumatic event for the whole family. As she neared death, the children were called to her bedside co kiss their mother goodbye. It was an experience they would never forget. Henrietta

> David never re-married. He continued to build houses, churches, schools, barns, or whatever people needed that a carpenter could build. At times he would be assisted by sons and/or sons-inlaw. He continued such work until he neared eighty years of age when he went to live with the family of his daughter, Cordelia Childers, near Coal Mountain on Route 60. There in 1933 he

succumbed to diabetes and

Contest, in which lying is an encouraged part of storytelling.

On both Saturday and Sunday, Putnam Countybased Appalachian Lasses demonstrations traditional Scottish and Irish dancing. The Lasses are affiliated with Mountain Dance, which is based on Red House hill and composed of local dancers. Many of the kilts that the dancers wore were made from material imported from Scotland, and represent the tartans of Scottish ancestors. Scottish and

dancing actually has a long history in Putnam County. In the 1960's, the WVU 4-H Extension Agency put an emphasis upon educating the public about the culture and traditions of Britain and Europe at the time in which many of the original settlers came to the Appalachian Mountains. 4-H Agent Jane Cox George organized a group of interested people from Putnam County and attended the West Virginia Heritage Mountain Weekends at Hawks Nest, in which they learned more about the roots of traditional Appalachian culture. There linguistic workshops on the archaic dialects of the Scots-Irish settlers taught by Wylene Dial of Lincoln County; workshops about historical instruments such as dulcimers, banjo, fiddle, tin whistle, and bagpipes, taught by Frank George of Roan County; and workshops on traditional Black Spirituals taught by Bill Hairston. Sue Lang, a woman from Scotland, taught traditional Scottish dances, and Marian Castalo of Huntington taught English country

dancing. Organized by 4-H Agent Jane Cox George, a company of dancers called the SinéAnna Scottish Dance Group traveled around the state, performing at different fairs and festivals in the 1960's and 70's. Later, in the 1980's, members of the Confidence Wild Cats 4-H Club formed the Appalachian Lads and Lasses. This 4-H club is now defunct, but the dance group lives on as the Appalachian Lasses, organized by Chantil McCormick, a teacher at Confidence Elementary

School.

Sweeten Up Summer With A Frozen, Fruity Snack

(Family Features) Whether you spend your summer afternoons sitting by the pool, splashing in the shallow end or just soaking up the sun's rays, part of the fun is beating the heat with a cool, refreshing snack. Heading to the freezer for a fruity ice pop can transport you from your own backyard to a tropical island, and the experience can be even more rewarding when the tasty treat is homemade.

Cool down after fun in the sun with these kid-friendly Pina Colada Sweetpotato Ice Pops, a tropical-inspired dessert made with coconut cream, sweetpotatoes, fresh pineapple, lime juice and honey.

Sure to please kids and adults alike, they're a better-for-you option when a cold snack calls your name. As a "diabetes superfood," according to the American Diabetes Association, sweetpotatoes provide a main ingredient that's rich in vitamins, minerals, antioxidants and fiber along with a "sweet" flavor without the added sugar.

The ease of this summer snack means kids can help in the kitchen, and while you wait for the sweet concoction to freeze, you can share this fun fact with them: The one-word spelling of "sweetpotato" was adopted by the National Sweetpotato Collaborators in 1989 in an effort to avoid confusion with the potato and yam among shippers, distributors, warehouse workers and consumers. To add to the fun facts, a sweetpotato is not even botanically related to a white potato; they are two entirely different species from one another.

RECREATION!

rown-ups go to work, come home and work, go to bed, then get up and do it all over again. Do you remember the last time you actually "played"? Recreation is important whether we are children or adults. The word "recreation" speaks for itself; we need to create ourselves again each day for optimum performance! We need to rest the mind, body, and spirit from the weight of daily responsibility. An essential element for renewal is daily trust in God's will. Join in weekly worship at God's house and let Him help you "re-create" yourself. You will be refreshed!

Samuel's Calling and Ministry I Samuel 3:1-9, 19-20; 7:3-5, 10, 12

The text before us records the calling of Samuel (Chapter 3) and the beginning of his ministry (Chapter 7). The two events took place a little over three thousand years ago and are separated by approximately 22 or 23 years. At the time of Samuel's calling, Israel had dwelt in the land which God had promised to Abraham, Isaac and Jacob and their heirs for three hundred years. During that three hundred years, there was no king in Israel and every man did that which was right in his own eyes (Judg. 21:25). It was a time in which few, very few, lived according to the law given to Moses.

The time is described as one in which the word of the Lord was precious (precious as in scarce) and there was no open vision (men had closed their hearts to the Lord) [v. 1]. During this time, "The child Samuel ministered unto the Lord before Eli." Eli was very old and his advanced years had resulted in loss of eyesight. He relied upon Samuel for physical and visual

It was in the early hours of dawn (the lamp of God which burned within the tabernacle was extinguished at daybreak [Ex. 27:21]) that Samuel heard what he thought to be the voice of Eli. Samuel answered and rushed to Eli. Eli had not called him and instructed him to lie down. No sooner had Samuel returned to his bed, he heard again what he perceived to be the voice of Eli. Samuel answered but Eli had not called.

When Samuel responded to the voice a third time, Eli realized that the voice that called out to Samuel was the Lord. Eli told Samuel that he should answer: "Speak, Lord; for thy servant heareth."

The Lord made it known to Eli through a man of God that his house would come to an end and his two sons would die on the same day (see 2:27-34). When Eli heard Samuel relate the same word (3:11-14) which a man of God spoke, Eli knew with absolute certainty that Samuel was chosen by God to speak to all Israel.

The arm of the Lord is not short. The Lord did not call out three times to Samuel because Samuel needed Eli's help in understanding. The Lord called out three times because He wanted Eli to broadcast that Samuel had been chosen deliver the word of the Lord all Israel (see v. 19-20).

The promised day of reckoning came and Eli and his sons all died upon the same day (4:17-18). Twenty years passed between 7:1 and 7:3.

In verse 3, Samuel implored Israel to return unto the Lord with all their heart. God intended Israel to be a kingdom of priests and a holy nation (Ex. 19:6). Samuel's message was: Do what God says and He will deliver you from Philistine oppression.

God had allowed Israel's enemy to defeat them because His people were not doing that which He requires. God's covenant with Israel required the nation to keep His commandments and His statutes.

Samuel is specific in his charges against Israel. He cites worship of Baalim and Ashtaroth. Israel could not be known as a holy nation and a

kingdom of priests by embracing false gods. Samuel called out to Israel to gather at Mizpeh where he would pray to God on their behalf. From a practical standpoint, the men of Israel could have remained in their homes while Samuel prayed. By gathering at

Mizpeh, the children of Israel demonstrated an expectation — God would honor Samuel's petition. Israel drew water and poured it out before the Lord. Why? It was an

outward act that symbolized an inner emotion. They were truly repentant. The outward act of pouring out water was a visible testimony of what they experienced in their hearts. God looks upon men's hearts and does not require a visible display. Israel poured out the water because they believed God would respond. God honors all who pour their hearts out to Him.

The gathering at Mizpeh was immediately known to the Philistines. The name Mizpeh suggests that it was a high place, not be a place chosen for a secret gathering. The Philistines quickly gathered their forces and made ready to battle Israel. When the children of Israel learned of the Philistinian action, they were afraid and called upon Samuel to continue to

pray such that God would save them. They looked to God for deliverance. Samuel offered up a burnt offering wholly unto God. In a burnt offering, the sacrifice is wholly consumed by fire and ascends to the Lord.

Nothing is held back.

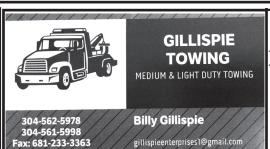

He loves us.

God answered Samuel's petition by thundering with a great thunder upon the Philistines. Israel easily defeated the Philistine army which was

Israel's purpose in gathering at Mizpeh was to have Samuel pray to God such that He would deliver them from the hand of the Philistines. Samuel and Israel did that which God wanted and God delivered. When God's

people do that which He requires, He responds. Today, believers are under a better covenant, a covenant that carries the expectation that we serve Him. The Son has said, "If ye love me, keep

my commandments." Let us do as He requires. Let us love one another as

West Virginia Working to Reverse Veterinarian Shortage Kent A. Leonhardt

West Virginia Commissioner of Agriculture

During the pandemic, folks hunkered down and avoided social settings to stop the spread of the covid virus. As they avoided their friends and families, they sought out other types of companionship, household pets. Over the last two years, pet ownership rose as much as 70%, increasing the need for veterinarians of all types. This has created a workforce crisis within the animal care industry. Even before the pandemic, according to the U.S. Bureau of Labor Statistics, the need for veterinarians nationwide would increase 16%. This has compounded the national shortage for veterinary services, especially within our farming communities. In West Virginia, we have felt this shortage for many vears, especially those doctors and technicians who specialize in large

As demand increases for household pets, we have seen many dual practice veterinarians drop the less profitable farm animal side of their practice for the household pet care business. Part of this equation is the national decline in dairy farms which were a mainstay for large animal practices. As the balance shifts away from large animal veterinarian care, it decreases access to services for all farmers, which creates another hinderance to growing animal-based agriculture in West Virginia. A safe, reliable food system falls on the shoulders of our veterinarian capacity. If we are going to work towards building local resiliency, we will need many more animal care professionals.

animals.

These professionals' services are not isolated to just animal care, as most veterinarians have training in public health. The reason is many animal diseases can be transmitted to humans, so it is vital veterinarians understand the risk to human caretakers. WVDA Veterinarians worked closely with public health officials during the early stages of the COVID-19 outbreak as some cats and dogs showed symptoms. These animals were tested to ensure the spread wasn't a risk to our animal populations as well as

those who oversee shelters

and humane societies.

Being sure they weren't infected was better than leaving it to chance, especially in the early, low-knowledge phase of the pandemic.

Here at the West Virginia Department of Agriculture we employ five full-time veterinarians. They work with colleagues around the state to create best practices as well as answer questions from the public. These folks are also on the front line, protecting our livestock industries by monitoring animal disease outbreaks. They are the ones overseeing emergency action plans and working with the industry to enhance biosecurity throughout West Virginia. From avian influenza to chronic wasting disease to African swine fever, these WVDA staffers show the importance these licensed professionals play in West Virginia.

I am pleased that the legislature has taken up the discussion of how we best address the shortages of veterinary medicine. With the abundance of funding from numerous federal sources, now may be the right time to address this critical shortage. We should embrace new technology such as tele-veterinary medicine in combinations with veterinary technicians for on-farm care. Any discussion that tries to tackle this issue must include veterinary technician programs as they may be a costeffective way to move forward. I am proud of the work my staff is doing with WV State University and West Virginia University Davis College in a collaboration to build a four-year Food Animal Veterinary Technology Program.

Whatever the solution may be, we must act now before this problem has severe effects on our quality of life in West Virginia. For many of us, our animals are important parts of our families. For West Virginia's local food systems to grow, we need to expand these services to our farmers. I applaud our Legislature for taking the time to see how we tackle these problems and move the industry forward. My hope is we can find cost effective means to increase the necessary

veterinary services to

keep our food supply safe.
