## County Commission Approves \$15 Million Revenue Bond Issuance

By Ron Allen

The Putnam County Commission met for 55 minutes on Tuesday, June 13. One minute of that time was devoted to an ordinance that provides a means to fund a fiber optic network that will benefit the most populated areas of the county. After a 30-second public hearing in which no one spoke, the Commission held the second reading and voted unanimously to approve the ordinance. The ordinance authorizes the Putnam County Building Commission to issue revenue bonds which will provide up to \$15 million to fund the fiber broadband network project. The ordinance authorizes the conveyance of all real and personal property constituting the Putnam County Courthouse to the Putnam County Building Commission for the purpose of providing

security for the bonds. Sheriff Bobby Eggleton used the June 13 commission meeting to publicly recognize the actions of two deputies. The Sheriff presented life-saving medals to Deputy Adam Walters and Deputy Matthew Wood. Deputy Walters, in responding to an accident on U.S. 35 on March 30, cut the seat belt of a semi-conscious female passenger and carried her to safety shortly before the wrecked vehicle became fully engulfed by flames. On May 30th, Deputy Wood arrived at an auto accident scene in Bancroft and found the female driver to be profusely bleeding from severed arteries in both legs. Wood applied a tourniquet to one leg and applied pressure to prevent blood loss from the other. He applied a second tourniquet when assistance arrived.

### SCULPTURE'S STORY TOLD

## Beating Swords into Plowshares

Charles Bradley poses with the "Beating Swords into Plowshares" sculpture that he created 32 years ago.

By Ron Allen

Beating swords into plowshares is both a message and a sculpture. The sculpture was placed in front of the Putnam County Courthouse in Winfield a little more than 30 years ago. All who read the inscription on the sculpture know that it was a gift to the people of Putnam County from Boilermakers Local #667 and that it is dedicated to the memory of

G.I.'s, P.O.W.'s, M.I.A.'s and K.I.A.'s. Very few, however, know what prompted the Boilermakers to make this special gift. There are no other like sculptures which the Boilermakers Union have placed at any other courthouse location in West Virginia.

On Friday, June 16, ten Boilermaker apprentices, all born well after the sculpture was created in 1991, learned how and why the sculpture came to be.

The creator of the sculpture, Charles Bradley of Culloden, was present to describe the circumstances that led the Boilermakers to make this unique gift. At that time, many Union members were Vietnam veterans. "They wanted to put memories of the war away and felt a need to honor those who did not return home," Bradley said.

Bradley stated that

## Hurricane Voters Extend Special Levy through 2026-27

By Ron Allen

When the votes were counted, the City of Hurricane June 13 Election results produced no surprises. The incumbent Citizens Party candidates were unopposed and were elected to terms set to expire on December 31, 2026. All future City of Hurricane Elections will coincide with the General Election held in non-Presidential election years. The City's Special Excess Levy was renewed for two

additional fiscal years. Hurricane voters approved a five-year extension of the Special Levy through the 2024-2025 fiscal year in January of 2020. All future Special Levy elections will be held in conjunction with the Primary or General Election conducted in non-Presidential election years.

Only 88 voters made their way to City Hall to mark their ballots. One voter cast a provisional ballot. The Special Levy extension was approved by a 70-17 margin (80%).

Other results are as follows:

Scott Edwards, Mayor - 78; Linda Gibson, Recorder - 81; Steve Goff, Councilperson - 77; Marshall Ginn, Councilperson - 78; Gerry Spears, Councilperson - 72; Reggie Billups, Councilperson - 75; Al Howard, Councilperson - 74

The City Council will meet on Friday, June 23, to certify the vote count and make the election official.

## Summer Cruise-In Time for Cops-N-Rodders

Earl Hawley of Nanchester, Tennessee, grew up in Putnam County. He decided to drive his 2002 navy blue Trans Am WS6 when he visited his mother this weekend, because the weather was predicted to be good. When he learned about the cruise-in, he decided to enter his car. While there, he met Steve Baxter of Scott Depot, who has a 2000 red Trans Am WS6. (Photo by Betsy Allen)

By Betsy Allen

The Cops-N-Rodders monthly summer cruise-in took place on Saturday, June 17, on the parking lot of the Putnam County Bank Loan Center. A large variety of cars, trucks, and other vehicles, from antique models to vintage ones, were on display for enthusiasts to enjoy. Over seventy vehicles were brought to the event throughout the course of the evening.

This will be this year's second Cops-N-Rodders cruise-in. Last month's event was cancelled due to

## The Way We Were, The Way We Are

By Brenda Burke

Traveling again. Since I moved to Florida, I have done little traveling... I live in paradise on the Gulf. My daughter (and her family members) come every 4-8 weeks... my son and family live behind me within walking distance. I don't need to go anywhere but HOME (WV... to Linda and friends there...that is a fall trip this year). I am going to Indiana. Graduations...

When I moved here, March 2021, to the condo my son purchased for me, my daughter and I drove the 1000 miles, while my son drove his truck with my things. (I do not own much; most of the furniture is his also.) The trip took us two days because we took our time. We ate in the car or the hotel rooms; my son drove much more quickly and arrived a day or so before we did.

The trip was fun, but it was driving, no sightseeing. This trip will be the same except I will fly up and back with a quick turn around. I want to attend my middle granddaughter's college graduation, attend the church recognition of my youngest granddaughter finishing high school (home school), visit with the family, fly home and attend the elder grandson's elementary graduation... and little one finish second grade.

I hope to see my four friends (we write) in church and others also. I loved my church. My daughter works there in an administrative

B.S.P.S. program by completing Math 127 or 130 and English 101 with a grade of C or higher and at least 15 credit hours of college coursework with a GPA of 3.0 or higher.

These are a few of the many pets up for adoption at the Putnam County Animal Shelter. By the time that this issue of the Hurricane Breeze is published, these animals may have already been adopted and found their forever homes. However, there are many pets at the shelter that still need homes.

capacity; the family is active in the church. Even though it is a modern-day church with THAT music, I miss my gospel music class (listening), Sunday School, Bible Study twice a month, and sitting with the "elderly" ladies in church on the back row. I miss that...

Traveling is not something I choose to do anymore. Covid did that for me. Living here has made me realize I don't need to go anywhere else for fun. I have been to 46 states, Canada a few times, and England two times. That has made me happy. I am content to be in the little condo with the family so close. The ocean out my door adds to it all.

That being said, this is something I choose to do; I want to go. My flight is at 7:00 A.M. which means 5:00 at the airport. Most of my family and friends realize that for the past five years, I have gotten up by five every day. I read and review for Netgalley. I like getting up early. My Mother, if she were alive, would be astonished, as would my mother-in-law...that is the way it is...

The pain of my bone diseases is getting worse; the sitting on the plane won't help...getting through the airports... alas...that is life. I have lived with this since my 20's. I charge on; I am WV Strong.

My daughter and I were discussing trips this year. Indiana will be one. WV will be the other. Going to the ocean, down the street is another... wherever I go, I see the Gulf, beautiful in its splendor.

My daughter has a busy few weeks... the youngest grandgirl is going to prom with her friends (she is home schooled). She turned 18 on Mother's Day... college graduation the next weekend with the church ceremony included. Won't be much time for resting, but we will make it... and enjoy every minute together.

This is an exciting time... my five grandkids are brainiacs and so successful in every endeavor. We are blessed. The best part is that my family is so sweet and caring. All of us love each other...

SO... I will get on the plane again; I can't count the trips I have taken from 1992 until now... usually four or five plane trips a year. Now... I am so over that... I will love my time in Indy; I will be excited to arrive home. I am happy.

A little word that means so much. I am a happy woman. Every minute of every day brings joy to my life. This is the way it should be because the way we were is the way we are, one big happy family. Loving and caring for each other. I will miss the family here as they do their several vacations this summer... NO... I do not want to travel... they will be in other countries plus they will be camping in their favorite places this summer... I look forward to hearing about those trips also... in the meantime, I am waiting for my trip to Indy and then to WV, later in the year. I want to see the faces of my loved ones in WV also.

Sycamore Road on the left. He had purchased the farm from Taz Oxley about 1915. It is not known who built the house but it was obviously built prior to 1900.

When World War I began, Mr. Thompson was inducted and sent to Maine where his wife and three children later joined him. After the war, they returned to Hurricane and bought the house on the corner of Reynolds Street and Putnam Avenue (this house later owned by Dr. Parker). They lived there until the mid-1930's when they returned to the farm. They remodeled the house adding a new front porch and fireplace. The most convenient place for the fireplace was on the front wall, thus part of the brick chimney is seen in the

turning from war to peace which was common to all veterans of that era. He utilized the skills which he had acquired as a practicing Boilermaker journeyman to fashion the stainless steel sword and plow.

The Boilermakers selection of Putnam County for home to the sculpture was fitting because Putnam, on a per capita basis, suffered more casualties than any other county within the United States during the course of the war.

After learning the story of the sculpture, the apprentices cleaned it and removed spots of corrosion. James Durst, president of Local #667, stated that the hours which the ten worked will count toward fulfilling the 4-year program which apprentices must complete in their pursuit of becoming journeymen. Durst said that there are currently 70 individuals throughout the state who are in the Boilermakers apprenticeship program. Statewide, there are 500 journeymen who are employed in powerhouses,

chemical refineries, locks and dams, and shipbuilding. When ever large equipment is part of the operation, boilermaker expertise is needed.

## Save Time with Sweet, Savory, Salty Snacks

(Family Features) Work, social commitments, kids' activities and the daily grind can take over schedules and wreak havoc on your opportunities to sit at the table for meals. As your calendar seems to fill up with meetings, family occasions and more, you might just find yourself skipping breakfast or lunch and opting for filling snacks instead.

In fact, according to the International Food Information Council's 2022 Food and Health Survey, 75% of Americans snack at least once per day, which means 2023 could become the year of the snack. Whether it's forgoing breakfast at home for a bite on the go or powering up with an afternoon morsel, one flavor favorite and nutritional powerhouse you can turn to is the pecan.

As pecans are used in an increasing number of snack innovations, they're being hailed as the fastest growing nut in new snack applications, according to Information Resources Inc. They're an ideal snack for punching up your routine with great taste, plant-based nutrition and an easy-to-pair profile.

If a saltier treat is more your speed, consider this Salty Pecan Snack Mix for a grab-and-go breakfast as you head out the door or an easy way to keep hunger at bay in the afternoon. # LESS IS MORE

Photo Credit: istockphoto/Rosenberg

As the average age of our population increases, the movement to “downsize” becomes more popular. Less to maintain means more time for a relaxed lifestyle and more free time. There is time for family and time to volunteer still vital energy for worthy causes in the community. As earthly baggage is reduced, there is time and energy to increase participation in God’s earthly kingdom...to serve as spiritual mentors to those still caught up in the busiest part of their lives. Share the wisdom that comes with age at your house of worship; spend more time with God’s family.

## BASIC BIBLE

### Growing God’s Kingdom

Matthew 13:24-33

In the text before us, Jesus relates three parables — The Parable of the Wheat and the Tares, The Parable of the Mustard Seed, and The Parable of the Leaven. These parables were spoken to a multitude (Matt. 13:34). In all three parables, Jesus likens the kingdom of heaven to natural occurrences with which His listeners understood.

New Testament believers of today understand that the kingdom of heaven is the spiritual kingdom which God the Father has established in His Son. None who heard the parables had understanding. Many in the multitude knew that John the Baptist had declared that the kingdom of heaven was at hand (Matt. 3:2). To them, the kingdom of heaven was the kingdom which God would establish — which kingdom Daniel prophesied (Dan. 2:44). They were looking for a kingdom which would consume all other kingdoms and stand forever. The notion that the kingdom which God would establish would be likened to a man sewing seed in his field or to a mustard seed which would eventually provide lodging for birds or to be like leaven which leavens the meal in which it is hidden was puzzling to both the multitude and the disciples.

Parables are simple stories that illustrate profound truths. Parables hold little meaning for those who are ignorant of the truth which they illustrate. Jesus spoke these parables before the kingdom of heaven was established. The good seed had not been planted and the enemy had not planted tares among the wheat when Jesus said these things. The parables illustrated happenings which were yet future.

Each of the three parables likens the kingdom of heaven to a series of events which unfold over time. In the wheat and the tares, we see a man sewing good seed, followed by an enemy sewing tares; fruit production by the good seed, followed by the appearance of tares which bear no fruit; an interval of time in which the wheat and the tares coexist, followed by the harvest in which the wheat and the tares are separated. In the mustard seed, we look upon a minute seed which is sown, grows into a tree with branches that provide lodging places for birds of the air. In the parable of the leaven, we see three measures of meal at two different times — an initial time in which no leaven is present and a later time in which the three measures of meal have undergone dramatic change.

Neither the disciples or members of the multitude understood. The purpose for which Jesus spoke these parables was not to impart understanding. Matthew 13:34-35 states the reason for His speaking in parables. By speaking in parables concerning the kingdom of heaven, Jesus identified Himself as the Lord God who spoke to Israel through the psalmist in Psalms 78:1-2. Understanding is forever hidden from those who refuse to hear (see v. 11-15). New Testament believers are given understanding of the parable by the Lord God. It is God’s intent that believers should understand the parables which Jesus spoke. Not all believers, however, possess the same understanding. The Lord did not give us understanding with the intent that we should sit idly upon it. The sewer of the good seed instructed his servants not to remove the tares from the wheat because it would cause the wheat to be uprooted. Uprooted wheat produces no fruit. The presence of tares most certainly hinders the yield which the good seed can produce but the good seed is able to produce fruit under adverse conditions. The Lord wants all believers to know that we, the good seed, shall produce fruit in adversity. We are not to uproot loquacity. Uprooting is self-destructive. Uprooting destroys the testimony of loving one another as Christ loves us.

Harvest time will come and His angels shall gather and bind the tares to be burnt and gather the wheat for His barn (v. 30). The wheat, the fruit of the good seed, shall rest in the Lord’s barn and the tares, the seed of the devil, shall be burnt. The Lord has not revealed the future to us with the intent that we hide it from men. Quite the contrary. We are to declare it to all who have the ears to hear. The Lord would have all men come to Him in repentance (2 Peter 3:9). It is only the tares, the children of the devil, who will not hear.

In the parable of the mustard seed, we see the kingdom of heaven increasing in size from a minute seed to a tree which serves as a habitat for the birds of the air. The disciples did not ask for an explanation. The birds of the air are not part of the kingdom but they use the kingdom of heaven for their purposes. The branches of the kingdom of heaven will be exploited by birds of the air. Jesus said it would happen — it shall be. The mustard tree is to continue growing — not to sever its branches.

The parable of the leaven is a picture which has confused some because leaven is a symbol of evil (Matt. 16:5, Mk. 8:15, Gal. 5:9). The leaven of the kingdom of heaven is not evil. The kingdom of heaven influences the meal in which it is placed for God’s purposes. We are the lumps of leaven which God has chosen to make many, many more lumps of leaven.

These parables are given to us such that we might walk according to His will. We, the good seed, have heard. Our rest is yet future. Let us work while we may. Let us share that which God has made known to us.

# Panera Bread Campaign to Benefit Fight Against Children's Cancer

Panera Bread has announced its 8th annual fundraising campaign to benefit Alex's Lemonade Stand Foundation. Alex's Lemonade Stand Foundation emerged from the front yard lemonade stand of 4-year-old Alexandra "Alex" Scott, who was fighting cancer and wanted to raise money to find cures for all children with cancer. Her spirit and determination inspired others to support her cause, and when she passed away at the age of 8, she had raised \$1 million. Since then, the Foundation bearing her name has evolved into a national fundraising movement. Today, ALSF is one of the leading funders of pediatric cancer research in the U.S. and Canada raising more than \$250 million so far, funding over 1,000 research projects and providing programs to families affected by childhood cancer.

From June 21 to August 29, Pan American Panera Bakery Café locations will donate 25 cents from each Frozen Agave Lemonade and Frozen Strawberry Lemonade sale. In addition to lemonade purchases, 10

cents from each Lemon Drop Cookie and \$3 from each lemonade tote sold with catering orders will also be donated to the foundation. Additionally, guests can round up their checks or donate a dollar amount at checkout to show their support. Participating Panera Bread locations include its Hurricane and Barboursville franchises.

CASE NO. 23-0298-E-P

Petition to Update the MBRC Rates Currently in Effect

#### PUBLIC NOTICE OF CHANGE IN RATES UPON APPLICATION

NOTICE is hereby given that Appalachian Power Company and Wheeling Power Company (the Companies), public utilities, have, on March 15, 2023, filed with the Public Service Commission of West Virginia a Petition to update the Modified Rate Base Cost (MRBC) surcharge revenues. The Public Service Commission's June 30, 2021, Order in Case No. 20-1012-E-P required the Companies to file an annual MBRC update in March 2022, 2023, and 2024. If approved, the increased rates will apply to electric service to approximately 462,328 customers in the counties of Boone, Brooke, Cabell, Clay, Fayette, Greenbrier, Jackson, Kanawha, Lincoln, Logan, Marshall, Mason, McDowell, Mercer, Mingo, Monroe, Nicholas, Ohio, Putnam, Raleigh, Roane, Summers, Wayne, and Wyoming.

and

CASE NO. 22-0393-E-ENEC

APPALACHIAN POWER COMPANY  
and WHEELING POWER COMPANY  
Petition to Initiate the Annual Review and to Update the ENEC Rates Currently in Effect.

#### NOTICE OF FILING AND HEARINGS

On April 28, 2023, Appalachian Power Company and Wheeling Power Company (jointly the Companies) filed their 2023 petition to initiate the annual review and update of Expanded Net Energy Cost (ENEC) rates. Also on April 28, 2023, Commission Staff filed, in Case Nos. 21-0339-E-ENEC and 22 0393 E ENEC, the prudency review report written by Critical Technologies Consulting. The Commission initiated the 2023 ENEC and reopened the 2021 and 2022 ENECs on May 26, 2023.

The Companies are seeking an ENEC increase of \$641.7 million, including an under recovery balance of \$552.9 million, as of February 28, 2023, that the Commission deferred over the last three ENEC cases (deferral amount), and an estimated \$88.8 million in fuel costs for the current year. Under a traditional one-year recovery, the requested \$641.7 million in fuel costs would require an increase of approximately 37% over current revenues. In order to minimize the impact on customers, the Companies are instead proposing two alternative recovery mechanisms.

The first proposed option in the 2023 case would spread recovery of the deferral amount over three years and additionally raise rates by \$88.8 million to align ENEC costs with ENEC revenues. If this alternative recovery mechanism is approved, the average monthly bill for the various classes of customers will be changed as follows:

|                   | (\$) INCREASE | (%) INCREASE |
|-------------------|---------------|--------------|
| Residential       | \$19.61       | 12.1%        |
| Commercial        | \$68.44       | 16.3%        |
| Industrial        | \$57,715      | 23.4%        |
| Special Contracts | \$110,362     | 21.9%        |
| Other             | \$1.63        | 10.0%        |

The second proposed option utilizes securitization of the deferral amount and other cost items and raises rates by \$88.8 million to align ENEC costs with ENEC revenues. If this alternative recovery mechanism is approved, the average monthly bill for the various classes of customers will be changed as follows:

|                   | (\$) INCREASE | (%) INCREASE |
|-------------------|---------------|--------------|
| Residential       | \$5.69        | 3.5%         |
| Commercial        | \$21.16       | 5.0%         |
| Industrial        | \$18,074      | 7.3%         |
| Special Contracts | \$25,756      | 5.1%         |
| Other             | \$0.57        | 3.5%         |

Public comment hearings will be held on the following dates in the following locations: July 11, 2023 at 5:30 p.m., Cabell County Courthouse, County Commission Courtroom, 750 5th Ave., Huntington, WV; July 12, 2023 at 5:30 p.m., Mercer County Courthouse, Judge Sadler's Courtroom, 2nd Floor 1501 W. Main Street, Princeton, WV; July 24, 2023 at 5:30 p.m., Howard M. Cunningham Hearing Room, 201 Brooks Street, Charleston, WV; and August 21, 2023 5:30 p.m., Ohio County Courthouse, Judge Cuomo's Courtroom, 2nd Floor, 1500 Chapline Street, Wheeling, WV. An evidentiary hearing will be held on September 5, 2023, beginning at 9:30 a.m., in the Howard M. Cunningham Hearing Room at the Commission's offices at 201 Brooks Street, Charleston, WV.

Anyone desiring to intervene and act as a party in Case No. 23 0377 E ENEC should file a Petition to Intervene on or before June 30, 2023, complying with the rules on intervention set forth in the Commission's Rules of Practice and Procedure. Anyone desiring to protest should file a written protest as soon as possible although protests will be accepted throughout the pendency of all three proceedings. All written protests should briefly state the reason for the protest. All protests and Petitions to Intervene should state the case name and number and be addressed to Karen Buckley, Executive Secretary, P.O. Box 812, Charleston, WV 25323.

APPALACHIAN POWER COMPANY AND WHEELING POWER COMPANY Petition for Commission Approval of Cost Recovery for a Purchase and Sale Agreement and Seven Purchased Power Agreements for Renewable Energy.

NOTICE OF FILING AND HEARING

On March 31, 2023, Appalachian Power Company (APCo) and Wheeling Power Company (WPCo) (together, the Companies) filed a Petition with the Public Service Commission of West Virginia (Commission) seeking the recovery of costs associated with APCo's agreements to acquire the Grover Hill wind facility and to purchase renewable energy products from the Green Acres, Mountain Brook, River Trail, Shifting Sands, Sunny Rock, Pleasant Prairie, and Horsepen Branch solar facilities.

The Commission has set an evidentiary hearing in the matter for September 14, 2023, starting at 9:30 am, and continuing to September 15, 2023, if necessary, to be held in the Howard M. Cunningham Hearing Room at the Commission's offices, 201 Brooks Street, Charleston, WV 25301.

The acquisition of the aforementioned renewable energy generation facility and the purchase of the aforementioned renewable energy products can be expected to have an ultimate impact on the Companies' West Virginia retail rates at some point in the future. The Companies do not expect these transactions to lead to any significant increase in customer rates.

The Companies have a Renewable Power Plus (RPP) Tariff to be offered on a voluntary basis to all customers in addition to the Companies' standard tariff offerings. It is anticipated that, over time, the costs of the proposed renewable facilities will be offset by the customers subscribing to the RPP Tariff, special contract revenues, and the cost of service benefits produced by the facilities.

The renewable facilities have varying in-service dates, but the Companies project that rates would increase by approximately \$3.7 million, on an aggregate basis after offsets, during a hypothetical first year that assumes all eight facilities are in service, as shown in the table below.

Table with 7 columns: Tariff Class, Current Rev, COS Increase, Gross Increase %, COS Offsets, Net Increase, Net Increase %. Rows include Residential, SWS, SGS, GS, LCP, IP, Special Contracts, SS, OL & SL, and Total.

The increases shown herein are based on averages of all customers in the indicated class. Individual customers may receive increases that are greater or less than average.

Anyone desiring to intervene in the matter should file a written petition to intervene on or before July 20, 2023, unless otherwise ordered by the Commission.

## Mountain State Art & Craft Festival Returns for 61st Year

The "granddaddy" of West Virginia heritage events is back for its 61st year in 2023 and promises the same great setting, food, events and artistry that made it a WV Living Magazine "Best of West Virginia" selection in 2022.

The Mountain State Art & Craft Fair (MSACF) is set for the Cedar Lakes Conference Center near Ripley June 30 through July 2 from 10:00 a.m. to 6:00 p.m. daily. Admission costs \$5.00. Children get in free. Acres of free parking is available.

"Many of the skills our artisans put on display have disappeared from everyday life," MSACF President Jean Smith said. "What makes this event different from most is that visitors can experience an era when West Virginians relied on what they could make and do with their hands. And visitors can actually make some of these crafts for free and take them home with them."

Among the highlights of the MSACF is its quilt show, the West Virginia Marketplace Tent featuring numerous West Virginia Grown food companies, and an Artisan Showcase displaying the

very best the MSACF has to offer, some for purchase. This year's event also will feature an antique engine shows and an antique tractor parade, along with blacksmithing, cast-iron cooking demonstrations and the Appalachian Lassies, who will give dancing lessons on Saturday.

Vendors will demonstrate their crafts, as well as sell their finished artworks, including paintings, jewelry, woodworking, weaving, pottery and others. "Make it-take it" projects will be taught for some crafts and make a great hand-on activity for kids and adults.

Appalachian storytellers will keep alive an oral tradition that predates the modern electronics that consume so much of people's lives today. Musical attractions will include some of the best bluegrass artists in the region. New this year, a fiddling contest will be held on Sunday.

Traditional food, such as stone-ground cornmeal and apple butter cooked over an open fire, will be for sale. More modern delicacies will be offered from a variety of food trucks and the Craft House bakery.

Friday will be Agriculture Day, Saturday will be Youth Day and will feature a kids' fishing derby, and Sunday will be Veterans and Heroes Day.

The grounds are flat with plenty of shade trees and hay bales. Leashed pets are welcome, so the entire family can attend.

"We know it's a busy weekend in the area with the Sternwheel Regatta also happening in Charleston, but it's not an either-or choice," Smith said. "There's plenty of

## Remembering Eva Young Fisher

By Linda Fisher Armstead

On June 21, 1924, this gorgeous summer baby was born to Lovie and Dona Young of Hurricane.

Of course I didn't know my mother when she looked like this, but she always was a nice looking lady. I cut and styled her hair for over 50 years and she looked like she came out of the beauty shop. She and dad were two of the best dressed people I know of.

Mom was the last living sibling out of 13 when she died on December 10, 2021. I really and truly thought my mother would live to be 100 but she didn't. She was 97 when she passed. After spending almost 64 years with the love of her life, my dad, Delmar "Vernie" "Pete" Fisher, after he left

time to enjoy it all."

More information is available online at [www.msacf.com](http://www.msacf.com). Information about the Mountain State Art & Craft Fair also can be found on numerous social media channels.

on November 6, 2010, she no longer wanted to live.

My mother was a wonderful country cook. She put a big spread on the kitchen table or dining room table for lots of people to eat. My favorite thing that she fixed was cushaw pie. Peach pie was my second favorite. Lots of folks liked her apple pie and raisin pie. One year she made over 100 pies and gave lots of them away.

She make good cakes too. She made the big fluffy biscuits, fried potatoes, pinto beans, or green beans, along with lots of other food, but these were what I grew up on. Talking about this makes me want to eat at their table again. She and Dad raised a big garden and they canned a lot of food. Dad shared his garden with family, friends, and neighbors. He had a green thumb.

Things really have changed in my life since I lost my great set of parents. Sad and lonely, but I guess it was my turn since my dad lived to be 86 and my mom 97. But just because of the age doesn't make it any less painful.

This is Mom's second birthday to spend in heaven with my Dad. Happy 99th birthday, Mom! I loved you and miss you.
